

## Parent Authorization For Student's Telecommunication Network Access

Our Acceptable Use Policy (AUP) includes the rules and regulations that our students and staff must follow in order to use the district's technology tools and online resources. The official AUP is attached and posted on the district website. Here are the expectations.

### **I will:**

- Establish family rules for computer and Internet use.
- Be aware and monitor what my child is doing online.
- Read the district policies regarding technology and Internet use.
- Make sure my child understands school/district rules for technology and Internet use.
- Find ways to teach my child about making good choices online.
- Monitor the amount of time my child spends online.
- Discuss any concerns with my child about his/her online activities.
- Communicate with and seek advice from the school.
- Understand and accept that the school will require students to publish online.

I understand that my child as a user of school technology resources accepts responsibility for his/her actions and conduct in using these resources. The use of all electronic devices and networks is a privilege, not a right.

**I am aware that if my child does not follow the rules there may be a disciplinary penalty and that appropriate persons and/or authorities will be notified.**
